**Dear Saruta-san,**

Following our standup discussion, the team raised the request for your assistance with the translation of the Fujitsu Japan Activate Methodology documentation, already shared with us via Sharepoint.

Team has encountered some challenges in identifying the most relevant and necessary documents within the existing folders. Currently, the documentation structure does not consistently align with the Activate phases, making it difficult for our bilingual resource to pinpoint the specific files essential for translation. This difficulty in locating documents is posing a risk of delays in our template translation efforts.

To ensure we prioritize correctly and accelerate our progress, we would greatly appreciate it if you could guide us on which specific folders or documents are most crucial for immediate machine translation. Your expertise in this area is vital for us to move forward efficiently.

We are ready to proceed with machine translation once we have your guidance on the priority documents.

Please let us know if there's a convenient time for a brief discussion, or if you could provide us with a list or pointers to the key areas.

Thank you very much for your time and support.

Best regards,

Aleksandra

Dear all,

Please find the minutes from today's meeting below:

## Open Issues

- Difficulty in locating and identifying specific necessary documents within the Fujitsu Japan Activate Methodology documentation due to unstructured folders.
- Significant dependency on Saruta-san for guiding the team on which documents require translation and prioritization.
- Constraints related to team bandwidth and the need to expedite processes with Japan due to dependencies and current lack of agreement on a minimum document list.
- Risk of delays in template translation due to the challenges in document identification and lack of a dedicated bilingual resource until clarification from Saruta-san.

## Notes

- **Review Session Preparation**
  - Aleksandra Wojewoda: Highlighted the 30-minute review session with a large audience requires efficient time management.
  - Aleksandra Wojewoda: Outlined the review session's goals: present the plan, address pain points, and gather stakeholders' feedback.
  - Pramod Tyagi: Suggested rescheduling the review session due to team holidays (India off today, Philippines off tomorrow, Pramod off Monday) and current low acceptance rates from senior stakeholders such as Tarun Devi and Nilesh-san.
  - Aleksandra Wojewoda: Confirmed the review session is rescheduled to Friday, March 27, 2026, at 7:30 AM UK time.
  - Joellio Resende: Offered to present on the target process view and features if needed, suggesting a quick pre-call to align.
  - Pramod Tyagi: Recommended using a slide deck for the presentation due to Japan's cultural preference for visual content and ease of sharing with stakeholders.
  - Aleksandra Wojewoda: Emphasized the need for the presentation to be concise to allow for audience questions and discussion within the 30-minute timeframe.
- **Template Translation and Fujitsu Japan Activate Methodology**
  - Rose Lily Gilbero: Reported that the Fujitsu Japan Activate 3.0 templates are not directly comparable and documents are disorganized across folders, not aligning with the methodology phases.
  - Rose Lily Gilbero: Stressed the critical need for Saruta-san's guidance to pinpoint specific documents for translation, as their bilingual resource is struggling to locate them.
  - Rose Lily Gilbero: Stated that her bilingual resource has started translating two specific PowerPoint slides to understand the Activate Methodology's basis.
  - Aleksandra Wojewoda: Noted that the existing documents are still in Japanese.
  - Rose Lily Gilbero: Clarified that wider machine translation will await Saruta-san's feedback, as they need to know which specific documents require translation.
- **Success Criteria**
  - Aleksandra Wojewoda: Announced that portfolio leads requested success criteria be established along with milestones.
  - Aleksandra Wojewoda: Acknowledged Joellio's draft proposal for success criteria and Lukasz's positive feedback on it.
